

MAP 10 > Reroute of main trail at km 38.2 (May 2008)

Reference: MAP 10, Edition 6.0 (2006) - At km 38.2 (end of the Ottawa Street road allowance) the trail crosses Otterbein Road instead of turning left onto Otterbein Road. It crosses a green patch and turns left along a portion of the Walter Bean Trail which passes behind houses with trees on the river side, before returning to Otterbein Road. It is along here that Kolb Creek forms a confluence with the Grand River.
