

Grand Valley Trail Reroute, Map 11 at approximately km 41.9 [effective 2010 March 21]

Due to the construction of a new house by the land owner our main trail has been altered slightly in consultation with the landowner. The total distance is not affected. Refer to paragraph three on the back of Map 11. Below is a modification of the trail description with the change italicized.

Immediately after the bridge the trail turns left, passing along the edge of a gravel lot, and veers left to descend steps to the river. It follows the river into bush, goes over a stile, *and continues straight for about 140 m before* it turns right and up a hill to a farmer's lane. It turns left along the lane and follows it to its end, ...
