

Grand Valley Trails Association

Revision to Map 8

Section that has changed:

Carolinian Crest Section at km 53.3

Effective September 2016

The Grand Valley Trail is closed at km 53.3, adjacent to the parking lot at the end of Powerline Road. (See red line on map.) At km 53.3, the trail passes north through the parking lot following the S. C. Johnson Trail for about 700 (blue line on map) passing a set of concrete and pipe barriers on each side of the rail trail. Shortly after the barriers, the GVT turns left at about 43.179085, -80.354900 leaving the S. C. Johnson Trail. (There should be a left turn blaze on the edge of the S.C. Johnson Trail. However, that blaze tends to periodically “disappear”.) Once the trail leaves the rail trail, it rejoins the original trail, follows the bend in the river and continues to the end of Curtis Ave S. at km 56.3. The change does not materially impact the overall distance.

Online maps

Updated GVTA maps are available online on the Ondago app. Simply download the Ondago app, select the Grand Valley Trail maps from the catalogue and download the map you need. Online maps are interactive and show your progress as you walk along the trail. Once a map is downloaded, you do not require a data connection while walking the trail.
